## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 2 and 8-12, drawn to a method for screening a compound using MCH of SEQ ID NO:2 or its derivative, and SLC-1, a kit for the method, and a MHC derivatized compound.

Group II, claim(s) 3-5, drawn to a compound altering the binding between MCH and SLC-1.

Group III, claim(s) 6, drawn to a protein having SEQ ID NO:11, or a salt thereof.

Group IV, claim(s) 7, drawn to a DNA encoding the protein of SEQ ID NO:11.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

This Authority considers that Group I invention is the main invention in the instant application, and it is directed to a method for screening a compound. The additional groups II-IV are directed to chemically and structurally distinct products, and they do not correspond to the main invention. This Authority therefore considers that Groups I-VI inventions do not share a special technical feature within the meaning of PCT Rule 13.2 and thus do not relate to a single invention concept within the meaning of PCT Rule 13.1.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
